

Description

G-N60 Positive

The G-N60 chokes are designed to reliably control the flow rate of fluids discharged from a well.

These chokes are available in Adjustable (stem & seat) or Positive (fixed bean) configurations, can be easily converted from adjustable to positive or vice versa, and are available with various end connections.

Specifications

#	Description	Part Number
	G-N60 Positive Assembly	CC100010
1	Blanking Cap, Solid	CC105410
1a	Blanking Cap Tap 1/2"	CC155410
2	Retainer Spring	CC105210
3	Wing Nut	CC103610
4	O Ring	CC103865
5	Flow Bean FC140	See Beans Below
6	Body, 2" 3-5m LP x LP	CB104410
7	Cage Nipple	CB104810
	Cap Assembly, Solid (1,2,3,4)	CC105810
	Cap Assembly Tap 1/2" (1a,2,3,4)	CC155810
